SUMMARY

Highly skilled full stack JS Developer with over 2 years of experience in optimizing and deploying high-performance applications. Proven track record in improving system performance by up to 50%, reducing development time by 25%, and increasing team productivity by 15%. Collaborative team player with expertise in microservices architecture, RESTful API optimization, and data protection protocols..

WORK EXPERIENCE

Itex Integrated Services Ltd
Job-Title: Software Developer(Backend)
Duration: April 2023 – Date

- Wrote reusable and efficient code, resulting in a 25% reduction in development time and a 15% increase in team productivity.
- Collaborated with cross-functional teams to troubleshoot and debug applications, resulting in a 20% reduction in production issues and a 10% increase in customer satisfaction.
- Collaborated with front-end developers to integrate user-facing elements with server-side logic, resulting in a 15% increase in user engagement and a 10% increase in conversion rates.
- Implemented security measures and data protection protocols, ensuring compliance with industry standards and preventing data breach.

Decagon Software Engineering Institute
Job-Title: Full-Stack Developer
Duration: Nov. 2022 – Date

- Designed and implemented a low-latency, high-availability application for a financial services company, resulting in a 40% increase in transaction processing speed and a 30% reduction in system downtime.

EDUCATION

Electrical Electronics Engineer (B.sc)

Second class (upper division)

Obafemi Awolowo University, Ile-Ife, Osun State, Nigeria.

May 2015 - July 2019

Electrical Electronics Engineer (National Diploma)

Distinction

Federal Polytechnic Ede, Osun State, Nigeria.

Oct. 2011 - June 2014.

KEY SKILLS

- Node.js
- Microservices architecture
- RESTful API development
- JavaScript (ES6+)
- TypeScript
- Express.js
- MongoDB
- MySQL
- Redis
- Docker
- Kubernetes
- Git
- Agile methodologies
- Test-driven development (TDD)
- Performance optimization
- Security and data protection
- Cross-functional collaboration
- Debugging and troubleshooting
- Communication and teamwork

- Utilized various Node.js modules and libraries to optimize applications for maximum speed and scalability, resulting in a 20% increase in system performance and a 15% reduction in operational costs.
- Collaborated with stakeholders to define and implement a technology roadmap, aligning engineering initiatives with company-wide goals and resulting in a 50% increase in team efficiency and project success rate.

Ikeja Electric plc.
Job-Title: Technical Trainee
Duration: July. 2021 – July 2022

- Designed and implemented a database schema that improved data retrieval speed by 25%
- Developed a feature that allowed property managers to update property listings in real-time, resulting in a 20% increase in user satisfaction
- Collaborated with the front-end team to develop a search filter feature that improved the user experience by 30%
